

How to Search for Audiovisual materials on Reagan Library website (<https://www.reaganlibrary.gov/>)

From the main website home page click on Archives at the right for drop down options and then Search Audiovisual Material for the AV collection.

You can then enter your search for specific AV items (photos, video and audio) by using the Audiovisual Resources Search on the main Audiovisual page. <https://www.reaganlibrary.gov/search-audiovisual>.

You can then enter your search. Our example is the date 06/12/1987. You can filter our search for our two main collections (White House Photo Collection Contact Sheets or WHTV 1981-89 (Video Collection))

The screenshot shows the top portion of the 'Audiovisual Resources Search' interface. The search bar contains the date '06/12/1987' and a red 'Search' button. Below the search bar, there is a paragraph of instructions: 'To refine your results, add quotations around a phrase or use AND, NOT, OR between keywords. You can also filter results after clicking the search icon by selecting any of the categories listed in the "Filter By" section below. Please note that available filters are based on your search results. To learn more about search, visit Search Help.'
