

# Emergency Protocol for Employees and Visitors

In case of an emergency, it is important to follow the direction of SCE's Emergency Response team. Evacuation routes and assembly areas should be posted near work locations. If you have any questions please contact your assigned Line Safety Coordinator (LSC) or the Edison Security Operations Center (ESOC) at (626) 815-5611. If you're visiting an Edison facility, please reach out to your Edison host or call ESOC.

Emergency Response Team – SCE has trained Emergency Personnel.

❑ Emergency Response Coordinators (ERC) – LEAD personnel (wearing red vests).

❑ Life Safety Coordinators (LSC) – SUPPORT personnel (wearing light blue vests).

Drills v. Real Emergencies – In case of an actual emergency, it's important to exit the facility as quickly and as safely as possible.

Building Evacuation – All personnel will be notified by Alarm (or LSC) if exiting the facility is required. Proceed to nearest exit.

Where do you go? - Proceed to the assembly area closest to your assigned work area, only if it is safe to do so. Look for direction from your LSC.

Roll Call – LSC's will take roll call to account for all personnel

- Check-in - Locate and check in with their LSC

Safe to Return – Emergency Personnel will confirm when it's safe to return to work.

**In case of an emergency, call (9) 911 first, then call  
Corporate Security - ☎ #: (626) 815-5611**
