# Office of State Auditor

The State Auditor’s office determines if tax dollars are spent efficiently, economically and legally, and how well public funds are protected from potential fraud or abuse. All audits are conducted in an impartial, nonpartisan manner and according to government auditing standards issued by the United States General Accounting Office.

The audits are categorized into five types: state government, performance, petition, county and special county audits. State government audits cover state agencies, boards and commissions, statewide elected officials, the legislature, the state’s financial statements and federal awards expended by the state. Performance audits analyze if various state programs or agencies achieve desired results and are run in the most efficient and cost-effective manner. The state auditor also reviews the state’s municipal and circuit courts, 90 of the state’s 114 counties, and can be petitioned by citizens to audit local political subdivisions. In addition to the primary auditing duties, the state auditor registers general obligation bonds and ensures tax rates levied by political subdivisions comply with state law.

**State Auditor Susan Montee**

The powers of the state auditor are derived from Article IV, Section 13 of the *Missouri Constitution*. Legal duties are detailed in Chapter 29 of the *Revised Statutes of Missouri*.

# Executive Departments

---

Government exists to serve, and a broad network of government organizations has been created to accomplish that purpose. The Missouri Constitution (Article II, Section 1) states: "The powers of government shall be divided into three distinct departments—the legislative, executive and judicial." This section also prohibits persons within each branch from exercising powers of the other branches. From these three branches spring the variety of organizations which deliver services of state government.

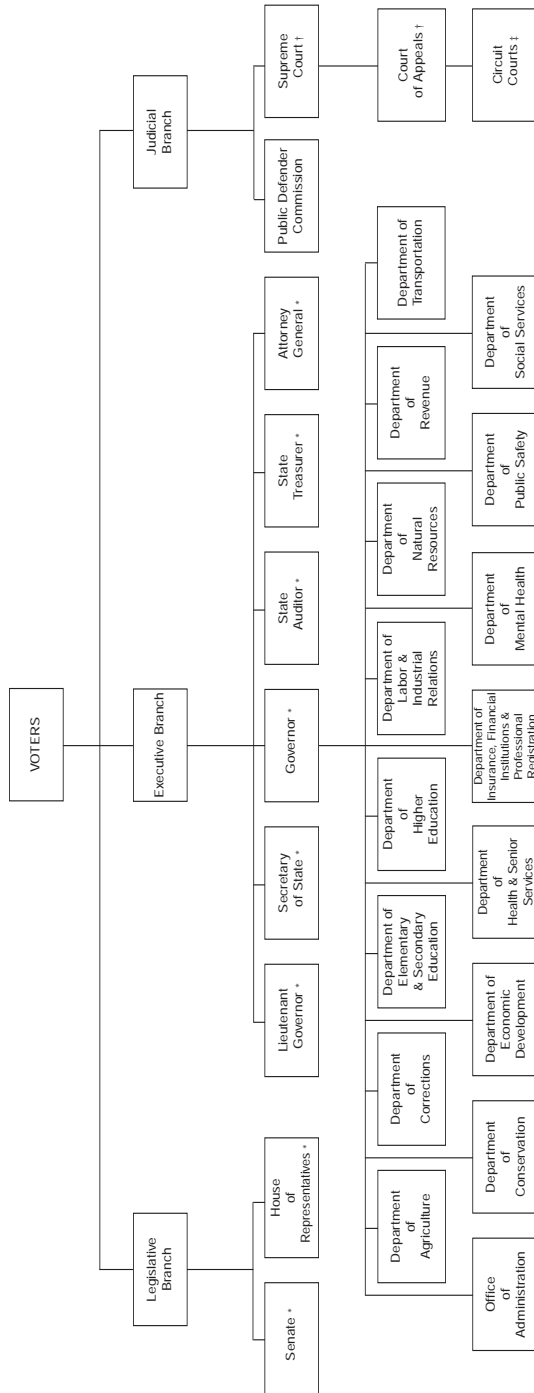

The many different names used by these groups—departments, divisions, agencies, boards, commissions, bureaus, units, sections, programs and others—can make it difficult to determine which area of government is responsible for certain services, and difficult to sort out responsibilities or relationships within the governmental framework.

It is through the executive branch that the greatest proportion of state services are delivered. The Constitution (Article IV, Section 12) and the Reorganization Act of 1974 have established a number of "executive departments" to deal with specific areas of interest. A chart showing the present state departments is shown on the following page.

The Missouri Constitution provides for 16 specific departments: the Office of Administration and the departments of Agriculture; Conservation; Corrections; Economic Development; Elementary and Secondary Education; Health and Senior Services; Higher Education; Insurance, Financial Institutions and Professional Registration; Labor and Industrial Relations; Mental Health; Natural Resources; Public Safety; Revenue; Social Services; and Transportation.

Within each executive department exists a variety of offices of varying size and scope which deal with specific services. Traditionally, "divisions" are the next-largest organizations within departments and function to bring together smaller-sized groups, such as "bureaus," "sections" or "units." Divisions may be governed by a "board" or "commission" composed of members who are either appointed by the governor, made members by law or appointed by a department official. State agencies may administer certain sections of state law as defined by the Revised Statutes of Missouri, may develop their own rules and regulations as promulgated in the Missouri Register and Code of State Regulations or may institute programs and policies which address the needs of their areas of service.

Generally speaking, the legislative and judicial branches rely on committees or other small, appointed groups to perform research, develop policy, provide advocacy services or handle administrative duties. In these two branches, services are delivered through the offices of the elected officials themselves and not by related agencies.

# Department of Agriculture

1616 Missouri Blvd., PO Box 630, Jefferson City 65102  
www.mda.mo.gov

Like Missouri agriculture, the duties of the Missouri Department of Agriculture are diverse. The department enforces those state laws that regulate and market Missouri's agricultural industry. The agency administers programs that protect the state's producers, processors, distributors and consumers of food, fuel and fiber, while marketing Missouri agricultural products at home and abroad.

Created by the General Assembly in 1933, the agriculture department is managed by a director who is appointed by the governor and confirmed by the Senate. The director determines department policy, oversees the department's divisions and disseminates information to the governor, the state legislature, industry representatives and the public.

The Department of Conservation, authorized in 1937 by an initiative process and statewide vote to amend the Missouri Constitution, was created by public demand for better management of the state's fish, forest and wildlife resources. The department is headed by the Conservation Commission, whose four members, no more than two of whom may belong to the same political party, are appointed by the governor with the advice and consent of the Senate. They serve without compensation for staggered six-year terms.

The commissioners appoint the the department director who, along with three assistant directors, directs programs and activities throught the divisions of administrative services, design and development, fisheries, forestry, human resources, outreach and education, private land services, protection, resource science and wildlife. The department's principal sources of revenue are receipts from the sale of hunting and fishing permits and the one-eighth of one percent conservation sales tax. Funds are also received from contracts and grants, primarily on a matching basis, from federal aid provisions of the Wildlife Restoration, Sport Fish Restoration and Cooperative Forestry Assistance Acts.

# Department of Corrections

---

PO Box 236, Jefferson City 65102  
[www.doc.mo.gov](http://www.doc.mo.gov)

The Missouri Department of Corrections is responsible for administering the sentences set by the court in ways that promote public safety at the lowest cost to the taxpayers. Offenders assigned to the Department are successfully managed by ensuring they are supervised at the correct custody or supervision level.

The Department of Corrections is committed to the philosophy of improving offenders' transition from prison to the community through implementation of the Missouri Reentry Process (MRP). This involves collaborative efforts with other state agencies and community organizations to identify and manage the factors contributing to the health, safety and prosperity of Missouri communities. Improved public safety requires a comprehensive effort between the Department of Corrections, the state's criminal justice system (including the courts, state and local law enforcement), state agencies, our communities, and the General Assembly to effectively manage every offender sentenced to supervision by the Department.

The Office of the Director oversees the operations of the four divisions within the Department. The Division of Adult Institutions oversees the custody and care of inmates within correctional institutions across the state. The Division of Probation and Parole is responsible for the community supervision of offenders. The Board of Probation and Parole consists of seven members appointed by the Governor with the advice and consent of the Senate. The Board conducts hearings and makes recommendations on parole reviews. The Division of Offender Rehabilitative Services provides program services to felons assigned to probation, parole or prison. Staff-related activities, support services and special programs are provided through the Division of Human Services.

The Department of Elementary and Secondary Education was reorganized and established in its present form by the Omnibus State Reorganization Act of 1974.

The Department of Elementary and Secondary Education is primarily a service agency that works with local school officials and other groups to identify needs within the educational system and to improve educational opportunities and programs for all citizens. Through its regulatory functions, the department strives to assure the effective and efficient operation of state and federal education programs. The State Board of Education is a lay board consisting of eight members appointed by the governor and confirmed by the Senate. It is vested with the responsibility for the supervision of the public school system in this state and establishes policy in accordance with state and federal law for the department. The board appoints a commissioner of education who serves as chief administrative and executive officer of the department. The commissioner, along with department staff, interprets and implements policies established by the board. The commissioner is assisted by a deputy commissioner, associate commissioner, and assistant commissioners for each of the other five divisions.

The Missouri Coordinating Board for Higher Education (CBHE) was authorized by an amendment to the Missouri Constitution in 1972 and established by statute in the Omnibus State Reorganization Act of 1974. The nine members are appointed by the governor, confirmed by the Senate, and represent each Missouri congressional district. The board members serve six-year terms; no more than five of the nine members may be affiliated with the same political party. The CBHE's primary goals in statewide planning and coordination are to increase educational attainment, develop a 21st century society and global economy, and enhance resources through increased investment, stewardship and shared responsibility.

The department is the administrative arm of the CBHE. The functions of the department include statewide planning for post-secondary education, evaluation of student and institutional performance, identification of statewide needs for higher education, development of effective and economical specialization among institutions, submission of a unified budget request for public higher education to the governor and the Missouri General Assembly, review and enhancement of institutional missions, and approval of new degree programs offered at the public colleges and universities. In addition, the department administers a variety of student financial assistance programs, the proprietary school certification program, and the State Anatomical Board.

The board employs a commissioner of higher education to carry out its goals and administrative responsibilities. The state system of higher education includes 13 public four-year universities, 21 public two-year campuses, 1 public two-year technical college, 25 independent colleges and universities, and 159 proprietary schools.

The Missouri Department of Labor and Industrial Relations is responsible for administering programs that: provide an income for workers to offset the loss of a job due to an injury or layoff; conduct employee representation elections for public bodies; regulate minimum wage and wages for public works and construction projects; promote safe working environments; enforce Missouri's anti-discrimination statutes and protect Missouri citizens in the areas of housing, employment and public accommodations.

Agencies operating within the department are: Labor and Industrial Relations Commission; State Board of Mediation; Division of Employment Security; Division of Workers' Compensation; Division of Labor Standards; and Missouri Commission on Human Rights.

The Labor Commission consists of three members, appointed by the governor and confirmed by the Senate. As part of their duties, the commission hears appeals from all decisions and awards in workers' compensation and unemployment compensation, makes determinations in prevailing wage and victims of crime compensation cases, and determines an appropriate bargaining unit of public employees.

The director of the Department of Labor and Industrial Relations is nominated by the commission and appointed by the governor, subject to the advice and consent of the Senate, to be the chief administrative officer of the department.

The Department of Public Safety is responsible for coordinating all elements of law enforcement, criminal investigation and public safety activities undertaken by state government, the ultimate goal being to ensure the safety and security of Missouri's citizens and their property. This is accomplished through the activities of the Missouri Veterans' Commission; Division of Alcohol and Tobacco Control; Missouri State Water Patrol; Division of Fire Safety; Missouri State Highway Patrol; Missouri Capitol Police; Missouri Gaming Commission; Office of the Adjutant General (Missouri National Guard); and the State Emergency Management Agency.

Established by the Omnibus State Reorganization Act of 1974, the department consisted of a small central staff and seven divisions which reported directly to the governor. Since then, significant changes have occurred. The department is now responsible for 3,600 employees and a budget of more than \$200 million.

The department is under the supervision of a director, appointed by the governor with the advice and consent of the Senate.

# Department of Revenue

---

*PO Box 311, Sixth Fl., Truman State Office Building, Jefferson City 65105-0311*  
*www.dor.mo.gov*

The Department of Revenue is one of the largest and most comprehensive of Missouri's state departments. As established in Article IV of the state constitution, the department collects state and local taxes and administers the state's motor vehicle and driver licensing laws, including the titling and registration of motor vehicles and the licensing of Missouri drivers.

The director, appointed by the governor and confirmed by the Senate, is responsible for all operations and policies of the department.

The department is comprised of four divisions: Administration, Legal Services, Taxation and Motor Vehicle & Driver Licensing. The Administration Division is responsible for human resources and other internal department issues. The other divisions are contacted more frequently by Missouri citizens and elected officials, and those divisions' detailed phone numbers are listed below. The goal of all department employees, no matter which division they work in, is to provide competent administration of Missouri's revenues.

# Department of Social Services

*Broadway State Office Bldg., PO Box 1527, Jefferson City 65102-1527*  
*www.dss.mo.gov*

The Missouri Department of Social Services was constitutionally established in 1974 because “the health and general welfare of the people are matters of primary public concern.” The department is charged with administering programs to promote, safeguard, and protect the general welfare of children; to maintain and strengthen family life; and to aid people in need as they strive to achieve their highest level of independence.

The department is organized into four program divisions: Children’s Division, Family Support Division, Division of Medical Services, and the Division of Youth Services. The Divisions of Budget & Finance, Legal Services, and General Services provide department-wide administrative and support services.

The department cooperates and partners with many private organizations, businesses and individuals to extend the outreach of human services to Missouri citizens.

The Department of Transportation is responsible for the five viable transportation alternatives available to Missourians: highways, aviation, waterways, transit and railroads. Those responsibilities include operation of the 33,000-mile highway system, including highway location, design, construction and maintenance.

The Missouri Highways and Transportation Commission, composed of six members, is the governing body of the department. The members are appointed by the governor, with the consent of the Senate.

The director and secretary are appointed by the commission. All other appointments are made by the director, with approval of the commission.

# Missouri Courts

---

Missouri has a three-tier court system. Article V of the Constitution, as amended by Missouri voters in 1976, vests the judicial power in a Supreme Court, the state's highest court with statewide jurisdiction; in a Court of Appeals consisting of districts established by the General Assembly; and in a system of circuit courts which have original jurisdiction over all cases and matters, civil and criminal, within the circuit.

The Supreme Court and Court of Appeals have general superintending control over all courts and tribunals within their jurisdictions. Original remedial writs may be issued and determined by the Supreme Court and Court of Appeals. Decisions of the Supreme Court are controlling in all other courts.

The Circuit Court may be organized into divisions: circuit, associate, juvenile, family and probate. Circuit judges may hear and determine all cases and matters within the jurisdiction of the Circuit Court.

The number of circuit judges is determined by the General Assembly. The Constitution requires at least one circuit judge in each of Missouri's 45 judicial circuits.

Associate circuit judges may hear those types of civil and criminal matters specified in Chapters 472, 476, 478 and 482 of the Revised Statutes. By agreement of the parties, by assignment of the circuit's presiding judge or by local court rule, associate circuit judges may hear any matter pending in the Circuit Court. Associate circuit judges may hear any case upon assignment by the Supreme Court.

# Classification of Municipalities

Missouri statutes classify municipalities on the basis of population and limit the form of government options of each classification. The statutes provide that a community may incorporate as a city of the third class, fourth class or village on the basis of the population at the time of incorporation. <sup>1</sup>Once a community is incorporated under a given classification, the municipality does not automatically change classification with a gain or loss of population. A municipality may change classification only when the change is approved by a majority vote of the people.

There are certain forms of government permitted for each classification of municipality. Villages are permitted only one form of government—an elected board of trustees, five in number if the village has less than 2,500 population and nine if more than 2,500 population. Fourth-class cities are permitted to have either a mayor/board of aldermen form or a mayor/city administrator/aldermen form. The board of aldermen may adopt a city administrator form by ordinance, without a vote of the people. Third-class cities are granted greater flexibility with the authority to establish a mayor/council form, a council/manager form, a commission form or a mayor/city administrator/council form. Finally, constitutional charter cities may adopt any form of government that the people approve in the charter.

<sup>1</sup>From 1821 to 1875, the Missouri General Assembly passed special charters for specific cities, until the 1875 Constitution prohibited further granting and amending of special charters. However, eight Missouri municipalities are still operating under special charters granted before 1875. They are Augusta, Carrollton, Chillicothe, LaGrange, Liberty, Miami, Missouri City and Pleasant Hill. If the voters of these municipalities decide to relinquish their special charters, they will be governed by the appropriate sections of the statutes relevant to their population classification.

Class	Population Requirement	Form of Government	Total Number
Village	less than 500	Board of trustees	266
4th Class	500-2,999	Mayor/board of aldermen Mayor/city administrator/alderman	584
3rd Class	3,000-29,999	Mayor/council Mayor/city administrator/council Council/Manager Commission	62
Constitutional Charter / Home Rule	more than 5,000	To be decided by the people	37
Special Charter	no requirement	As set forth in the individual special charter	8

CDP: Census designated places (CDP's) are delineated for the decennial census as the statistical counterparts of incorporated places.

## Constitutional Amendment 1

*[Proposed by the 94th General Assembly (First Regular Session) HJR 7]*

Shall the Missouri Constitution be amended to add a statement that English shall be the language of all governmental meetings at which any public business is discussed, decided, or public policy is formulated whether conducted in person or by communication equipment including conference calls, video conferences, or Internet chat or message board?

It is estimated this proposal will have no costs or savings to state or local governmental entities.

## Constitutional Amendment 4

*[Proposed by the 94th General Assembly (Second Regular Session) SJR 45]*

Shall the Missouri Constitution be amended to change provisions relating to the financing of stormwater control projects by:

- limiting availability of grants and loans to public water and sewer districts only;
- removing the cap on available funding and existing restrictions on disbursements;
- requiring loan repayments to be used only for stormwater control projects?

It is estimated the cost to state governmental entities is \$0 to \$236,000 annually. It is estimated state governmental entities will save approximately \$7,500 for each bond issuance. It is estimated local governmental entities participating in this program may experience savings, however the amount is unknown.

## Proposition A

*[Proposed by Initiative Petition]*

Shall Missouri law be amended to:

- repeal the current individual maximum loss limit for gambling;
- prohibit any future loss limits;
- require identification to enter the gambling area only if necessary to establish that an individual is at least 21 years old;
- restrict the number of casinos to those already built or being built;
- increase the casino gambling tax from 20% to 21%;
- create a new specific education fund from gambling tax proceeds generated as a result of this measure called the "Schools First Elementary and Secondary Education Improvement Fund"; and
- require annual audits of this new fund?

State governmental entities will receive an estimated \$105.1 to \$130.0 million annually for elementary and secondary education, and \$5.0 to \$7.0 million annually for higher education, early childhood development, veterans, and other programs. Local governmental entities receiving gambling boat tax and fee revenues will receive an estimated \$18.1 to \$19.0 million annually.

## Proposition B

*[Proposed by Initiative Petition]*

Shall Missouri law be amended to enable the elderly and Missourians with disabilities to continue living independently in their homes by creating the Missouri Quality Homecare Council to ensure the availability of quality home care services under the Medicaid program by recruiting, training, and stabilizing the home care workforce?

The exact cost of this proposal to state governmental entities is unknown, but is estimated to exceed \$510,560 annually. Additional costs for training are possible. Matching federal funds, if available, could reduce state costs. It is estimated there would be no costs or savings to local governmental entities.

## Proposition C

*[Proposed by Initiative Petition]*

Shall Missouri law be amended to require investor-owned electric utilities to generate or purchase electricity from renewable energy sources such as solar, wind, biomass and hydropower with the renewable energy sources equaling at least 2% of retail sales by 2011 increasing incrementally to at least 15% by 2021, including at least 2% from solar energy; and restricting to no more than 1% any rate increase to consumers for this renewable energy?

The estimated direct cost to state governmental entities is \$395,183. It is estimated there are no direct costs or savings to local governmental entities. However, indirect costs may be incurred by state and local governmental entities if the proposal results in increased electricity retail rates.

## Missouri Voting and Elections

### Who registers to vote in Missouri?

Citizens living in Missouri must register in order to vote. Any U.S. citizen 17 years and 6 months of age or older, if a Missouri resident, may register and vote except:

- A person who is adjudged incapacitated
- A person who is confined under sentence of imprisonment
- A person who is on probation or parole after conviction of a felony until finally discharged
- A person who has been convicted of a felony or misdemeanor connected with the right of suffrage (RSMo 115.133)

### How do Missourians register?

Qualified citizens may register in person at the office of their local election authority, by mail, at the driver's license fee office or at participating state agencies. Registration in person is accomplished by filling out registration forms with information on identity, residence and qualifications which are signed and sworn to, then witnessed by the election authority or a designee. (RSMo 115.155)

Registration by mail, at the driver's license fee office or at the participating state agencies requires submission of an application stating qualifications. A verification or rejection of registration is sent by the election authority within seven working days. (RSMo 115.159)

### When do Missourians register?

An unregistered citizen may register to vote whenever local election officials' places of business are open, by requesting an application by mail from the election authority, when renewing a Missouri driver's license or when receiving services from a participating state agency. Special registration sites and dates may be utilized prior to major elections.

The deadline for registration is the fourth Wednesday prior to an election. New Missouri residents may register immediately.

### When do Missourians vote?

In addition to certain special and emergency dates, there are six official election dates in Missouri:

The statutes require that all public elections be held on the general election day, the primary election day, the general municipal election day, the first Tuesday after the first Monday in February or November, or on another day expressly provided by city or county charter, the first Tuesday after the first Monday in June and in nonprimary years on the first Tuesday after the first Monday in August. (RSMo 115.123.1)

The general election day is the first Tuesday after the first Monday in November in even-numbered years. The primary election day is the first Tuesday after the first Monday in August in

even-numbered years. (RSMo 115.121 (1 & 2))

Elections for cities, towns, villages, school boards and special district officers are held the first Tuesday after first Monday in April each year, known as "general municipal election day." (RSMo 115.121.3)

A statewide presidential preference primary shall be held on the first Tuesday after the first Monday in February of each presidential election year. (RSMo 115.755)

### Who conducts registration and elections?

Voter registration and the conduct of elections are the responsibilities of boards of election commissioners in the counties of Clay, Jackson, Platte and St. Louis and in the cities of Kansas City and St. Louis. The county clerk serves as the election authority in all other counties of the state.

### Special voting provisions

Disabled voters and persons prevented from voting at the polls because of absence or illness may vote absentee. Persons with permanent disabilities may apply for permanent absentee ballot status by making application with the local election authority and providing a physician's statement as required by law. (RSMo 115.284) Curbside voting is permitted in Missouri, or voters may be transferred to more accessible precincts. Local election officials should be contacted about absentee federal service balloting or "new resident" ballots for residents who arrive after the registration deadline.

When voting, Missourians must show an approved form of identification. (RSMo 115.427)

### Elections and political parties

Missourians do not register under party affiliation. Hence, at primary elections, voters may choose which "established party" they vote within. Party nominees—and independent candidates—are then listed on the general election ballot.

There are presently four "established political parties" statewide—the Democratic, Republican, Constitution and Libertarian parties. Persons may seek the nomination of these parties for any elective office from the county level and above. In order to become "established," a party must have received more than two percent of the votes cast statewide for at least one of its candidates. New parties are formed by petition and may exist on the county, district or state level. They must meet the same standard as any other party to remain "established."

At the time of primary elections, voters select county committee members of established parties in Missouri. Those committee people, thus elected, have certain duties and responsibilities. They serve, as appropriate, as members of legislative, senatorial, judicial, and

congressional district committees. County, district, or state committee members may be called on to fill candidate vacancies on party ballots or to select nominees for special elections from time to time. The state committees are selected, indirectly, by local committee persons. The state committees become especially important when delegates to presidential nominating (national) conventions are being selected.
