They also underscored the need to enhance cooperation with a view to supporting the AU peacebuilding efforts, including the implementation of the African Union Policy on Post-Conflict Reconstruction and Development (PCRD).

4. The AU PSC and the members of the UN PBC underlined the importance of national ownership, leadership, and full participation of all strata of society, including the youth and women. They further underlined the need for concerted support to the short- and long-term peacebuilding and national prevention plans of countries and regional organizations. Further, the meeting stressed the importance of comprehensive and coordinated approaches to peacebuilding activities in Africa, taking into account the importance of amplifying collective efforts to strengthen regional efforts to address the root causes and drivers of peacebuilding challenges.
