## INTRODUCTION

The General Assembly, composed of all Member States, is the main deliberative organ of the United Nations and may discuss and make recommendations on all matters within the scope of the Charter. The General Assembly meets each year in regular session and holds special and emergency sessions as the need arises.

The *Index to Proceedings of the General Assembly* is a bibliographic guide to the proceedings and documentation of the General Assembly. This issue covers the nineteenth special session of the Assembly, which was convened for the purpose of an overall review and appraisal of the implementation of Agenda 21. The Index is prepared by the Dag Hammarskjöld Library, Department of Public Information, as one of the products of the United Nations Bibliographic Information System (UNBIS).

### ARRANGEMENT OF THE INDEX

It consists of the following sections:

*Sessional information*, listing officers, and providing information on the rules of procedure and on the republication of the resolutions and decisions;

*Check-list of meetings*, listing the plenary meetings of the Assembly and the meetings of the Main Committees;

*Agenda*, listing items considered by and brought before the General Assembly together with the subject headings under which they appear in the Subject index;

*Subject index*, providing topical access to General Assembly documentation arranged alphabetically by agenda subjects and listing documents submitted under each agenda item, the meetings at which the items were considered and the action taken on each item;

*List of documents*, listing documents issued in connection with the session.

*Resolutions adopted during the nineteenth special session*, indicating the number and title of each resolution, the meeting number and date, the agenda item number, and the vote where appropriate;

*Index to speeches*, providing access to speeches made during the session. It is subdivided into three sections: corporate names/countries, speakers and subjects.

### DOCUMENTATION OF THE GENERAL ASSEMBLY

The symbols of the documents of the General Assembly begin with A/-, followed by the session number and an indication of the type of document or Main Committee to which they apply. The number following indicates the number of the document issued in that specific series.

For example: A/S-19/29 is the twenty-ninth in the series of main documents of the nineteenth special session.

Meeting records are numbered in a similar way. Thus the verbatim record of the first plenary meeting of the nineteenth special session of the General Assembly bears the symbol A/S-19/PV.1.

In accordance with criteria approved by the General Assembly for the provision of meeting records of United Nations bodies, the verbatim records of the plenary meetings are issued in only one form, as *Official Records of the General Assembly*. Corrections are issued after the end of each session in consolidated corrigenda.

Of the other documents, a few appear as printed *Supplements to the Official Records* (this is noted in the index).

Resolutions adopted by the General Assembly, first issued separately, are collected in a printed *Supplement* to the *Official Records* of each session. After their republication in the *Official Records*, these provisional documents are no longer available.

## HOW TO OBTAIN DOCUMENTS

Printed documentation of each session of the General Assembly may be obtained or purchased from authorized sales agents by providing the following information:

*Official Records of the General Assembly, nineteenth special session:*

**Meeting ...** (specify plenary or committee meeting number) for verbatim or summary record fascicles.

**Supplement No. ...** (specify supplement number) for documents issued in this form.

**Annexes, Agenda item ...** (specify agenda item number) for documents republished in the *Annexes*.
