A. INTRODUCTION

Establishment of the Trusteeship Council

The Trusteeship Council, one of the six principal Organs of the United Nations, is established by Article 86 of the Charter of the United Nations. The Council consists of the following Members of the United Nations: (a) those Members administering Trust Territories; (b) such of those Members mentioned by name in Article 23 of the Charter of the United Nations as are not administering Trust Territories; and (c) as many other Members elected for three-year terms by the General Assembly as may be necessary to ensure that the total number of members of the Trusteeship Council is equally divided between those Members of the United Nations which administer Trust Territories and those which do not.

After the approval of the first Trusteeship Agreements by the General Assembly at its sixty-second plenary meeting, 13 December 1946, the conditions necessary for the Constitution of the Trusteeship Council could be fulfilled. Thus, in accordance with Article 86a of the Charter, Australia, Belgium, France, New Zealand and the United Kingdom became members of the Council. By application of Article 86b, China, the Union of Soviet Socialist Republics and the United States of America also became members of the Council. In compliance with Article 86c, the General Assembly periodically elects non-administering members for a term of three years.

As a result of the entry into force of the Trusteeship Agreement for the Pacific Islands* on 10 July 1947, the United States of America was entrusted with the administration of a Trust Territory, and, in order therefore to ensure that the total number of members of the Council was equally divided between those Members of the United Nations which administer Trust Territories and those which do not, the General Assembly, at its one hundred and ninth plenary meeting, 13 November 1947, elected two other non-administering members, thus increasing their number to four.
