

# ENGINEERING FOR THE FUTURE

Webb Institute

# THIS IS NOT YOUR TYPICAL ENGINEERING COLLEGE

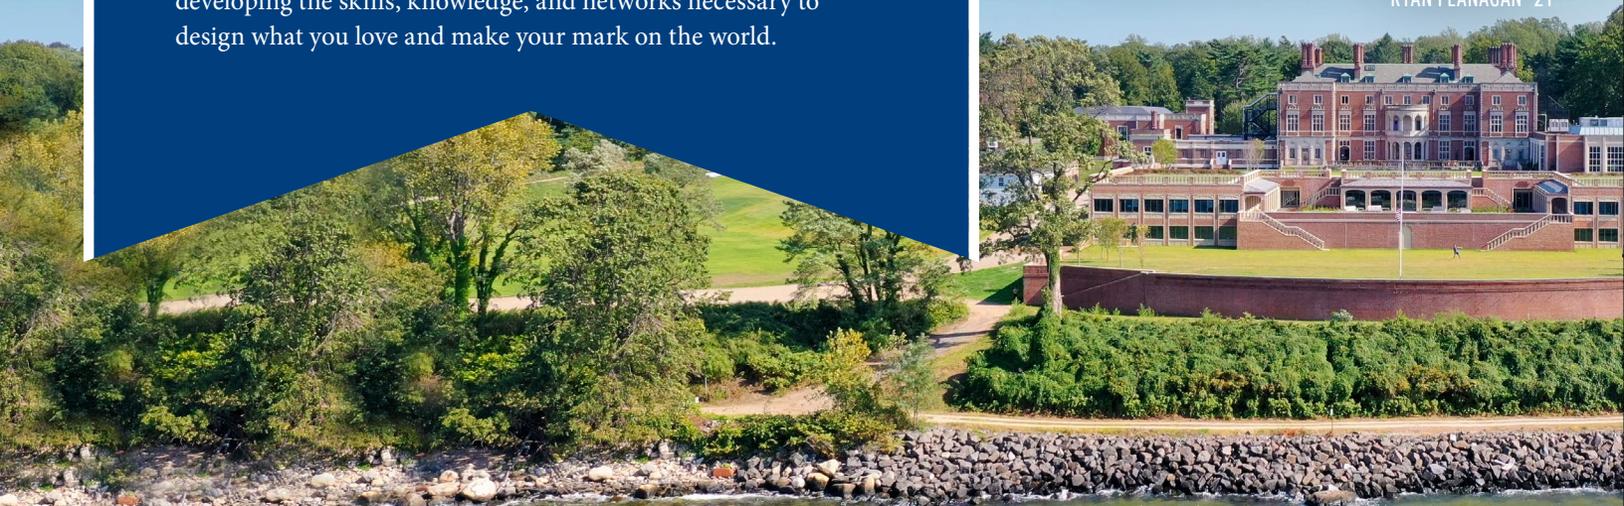

Do you have an unsinkable love of engineering and a passion for the water? Webb is the place where the two come together! Earn a dual degree in Naval Architecture and Marine Engineering through our unique, multi-disciplinary engineering program.

As a “Webbie,” you’ll collaborate and problem solve, all while developing the skills, knowledge, and networks necessary to design what you love and make your mark on the world.

MY INTEREST IN SAILING AND LOVE OF ENGINEERING DREW ME TO WEBB. THE ENGAGING PROFESSORS, THE OPPORTUNITIES WITHIN INDUSTRY, AND THE UNIQUE EXPERIENCES I’VE HAD ARE WHY I’M SO FORTUNATE TO BE A PART OF THE WEBB FAMILY.”

An aerial photograph of a school campus. The central focus is a large, multi-story brick building with a central tower. To the right of this building is a long, narrow structure identified as a model tank. Further right is a red and green tennis court. In the bottom right, a large, open area is identified as the Haerberle Lab. To the left of the main building, there are several smaller buildings and a parking lot. In the top left, a beach and the Long Island Sound are visible. The campus is surrounded by lush green trees and lawns.

## WINTER WORK INTERSHIPS TAKE YOU AROUND THE WORLD

How do Webbies graduate with a 100% job placement/graduate school acceptance rate? We attribute this impressive stat partially to our dynamic Winter Work internship program. Four winters. Four unique learning opportunities in the marine industry. You'll build your professional skills and your résumé in the field and on the job.
