THE WONDERWORKS STORY

On a remote island, in the mysterious Bermuda Triangle, there was a top-secret research laboratory led by Professor Wonder.

While working on an experiment to harness the power of a tornado, something went terribly wrong!

The power of the tornado was unleashed into the laboratory! The mighty cyclone ripped the building from its foundation! The tornado carried the lab hundreds of miles away where it finally landed upside-down at Broadway at the Beach!

The wind grew stronger than expected! Professor Wonder tried to stop the experiment, but the swirling vortex spun out of control and was too strong to be contained!
