Outstanding Oceans! WonderWorks Orlando Highlighting Ocean Education in June.

ORLANDO, Florida – (June 10, 2024) – According to the National Oceanic and Atmospheric Administration (NOAA), 70% of the Earth’s surface is covered with ocean and it makes up 96.5% of the planet’s water. The oceans benefit humans in many ways, so it’s no surprise the month of June is dedicated to highlighting them, branding it National Ocean Month. In honor, WonderWorks Orlando is inviting guests to explore and learn more about oceans all month long, all while offering a fun indoor place to spend some time on a hot summer day.

“Be sure to stop by the latest iteration of our I Think, Therefore I STEM exhibit this month to dive into ocean education!” says Davianys Ramos, education sales manager at WonderWorks Orlando. “We were honored to partner with our friends over at SeaWorld and NOAA to develop a great exhibit that teaches guests about the fascinating careers of marine biologists and all they do for marine conservation.”

June is not only observed as National Ocean Month, but June 8th is also considered [World Ocean Day](#). Highlighting the ocean during these holidays is a great way to help people learn about its important role in maintaining a stable climate and the importance of having a healthy ocean system for all to thrive.

WonderWorks Orlando offers several interactive exhibits that highlight ocean life, offering guests a place to play and explore. Guests can learn about the life of a shark by checking out the immersive, multisensory, and educational VR experience at the Shark Sense exhibit. Additionally, WonderWorks has partnered with SeaWorld and NOAA to spotlight the marine biologist career field, using insights and feedback from members on their teams. The exhibit allows guests to learn about all that a marine biologist does in their field and how to become one. Guests can then test their skills to see if they have what it takes to join the exciting field.

According to NOAA, oceans play important roles in our global economy and ecosystems, including climate regulation, transportation, recreation, and the food chain. Because of their multifaceted resources, it is critical that humankind learn more about them and how to help keep them healthy for all.

WonderWorks provides a great space to learn about things like the ocean in a fun, comfortable environment. Many families may want to consider heading indoors as the summer heat, humidity, and afternoon thunderstorms roll into Central Florida, and the upside-down house is a go-to, family attraction. It offers the perfect escape from the brutal summer elements, as it's filled with three floors of interactive exhibits and has something of interest for everyone. There are plenty of fun attractions and activities all under one roof, including hands-on games, laser tag, an indoor ropes course, simulators, a nightly dinner show, and more.

"Those Florida summer temperatures are creeping up, so staying hydrated and enjoying indoor fun is important! WonderWorks is an indoor amusement park for the mind that's great for all ages and is conveniently located on International Drive. We hope to see you in our upside-down laboratory this summer!" says Brian Wayne, general manager at WonderWorks Orlando.

To keep up on the latest discounts, events, and more, follow the WonderWorks Orlando [Facebook page](#). WonderWorks Orlando is located at 9067 International Drive and is open 365 days a year. It offers a variety of educational and student group opportunities, including visits for summer camps, scouts, team building, and more. To learn more about the WonderWorks experience or get ticket information, visit the site: <https://www.wonderworksonline.com/orlando>.

About WonderWorks

WonderWorks, the upside-down adventure, is a science-focused indoor amusement park for the mind that holds something unique and exciting for visitors of all ages. Guests enter through an upside-down lobby with the ceiling at their feet and the ground above their heads and must pass through an inversion tunnel to turn right side up. There are three floors of nonstop "edu-tainment," with over 100 hands-on and interactive exhibits that serve a STEM educational purpose to challenge the mind and spark the imagination. WonderWorks Orlando is also home to The Outta Control Magic Comedy Dinner Show. WonderWorks is in Orlando, Pigeon Forge, Myrtle Beach, Panama City Beach, Syracuse, and Branson. For more information, visit the site <https://www.wonderworksonline.com/orlando>.
