

FOR YOUTH DEVELOPMENT®
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY

85% of the Y's afterschool program sites are located at public or private schools.

"The Y is my partner in delivering quality afterschool programming that reinforces what is learned throughout the school day. The Y's programming augments our school programs in many ways which result in happier, healthier students."

- Dr. Mark Porterle,
Superintendent of Schools Port Arthur ISD

SUPPORTING STUDENT SUCCESS

WHY PARTNER WITH THE YMCA?

With a focus on safety, health, social and emotional growth and academic enhancement, YMCA out-of-school time offerings serve kindergartners through middle schoolers with a variety of programmatic options to explore and develop their interests and talents.

As schools transition to remote or hybrid learning environments this fall in response to the COVID-19 pandemic, Ys across the country are partnering with local schools to help students reach their full potential by developing:

- Virtual classes that enhance the school day
- Flexible out-of-school program schedules
- Programs rich in academics and SEL

The Y supports 500,000 children through quality afterschool programming at more than 10,000 sites each year.

Find your local Y to learn more about out-of-school time offerings in your area.
