## ADVANCE DATA FROM THE QUARTERLY FINANCIAL REPORT FOR MANUFACTURING, MINING, AND TRADE CORPORATIONS--FIRST QUARTER 1998 <br> (Except where noted, all figures in text and tables are not seasonally adjusted.)

#### Abstract

Sales and after-tax profits data for all manufacturing are presented in Table 1 on both a seasonally adjusted and an unadjusted basis. Seasonally adjusted historical data for this series, as well as for total durable and total nondurable manufacturing, are presented in Table 3. Data for individual manufacturing industries are not seasonally adjusted.

## SPECIAL NOTE

Beginning with the first quarter of 1998, the reporting forms used by the Quarterly Financial Report Program were updated to conform with changes in accounting principles and to provide more meaningful data to users. As a result, net income before and after tax have been redefined to include minority stockholders' interest. Prior quarter data in the publication and the press release have been restated to reflect this change in definition.

Manufacturers' After-Tax Profits

Manufacturing corporations' seasonally adjusted after-tax profits averaged 7.5 cents per dollar of sales for the first quarter of 1998, up $1.6( \pm 0.2)$ cents from the fourth quarter of 1997. The Commerce Department's Bureau of the Census also reported that on an unadjusted basis, aftertax profits for the first quarter averaged 7.7 cents per dollar of sales, up $2.4( \pm 0.2)$ cents from the preceding quarter and up $1.2( \pm 0.2)$ cents from the same quarter in 1997.

For the first quarter of 1998, manufacturers' seasonally adjusted after-tax profits were $\$ 74.1$ billion, up $\$ 15.1$ ( $\pm 1.4$ ) billion from last quarter. On an unadjusted basis, first quarter after-tax profits were $\$ 73.2$ billion, up $\$ 19.6$ ( $\pm 1.4$ ) billion from last quarter and up $\$ 12.7( \pm 1.4)$ billion from the same quarter a year ago.

Unadjusted durable manufacturers' after-tax profits for the first quarter of 1998 were $\$ 44.0$ billion, up $\$ 16.0$ billion or 56.8 percent $( \pm 6.1 \%)$ when compared to the fourth quarter of 1997 , with the underlying industry categories showing mixed results. The sharp increase in motor vehicles of $\$ 16.4( \pm 0.1)$ billion was due primarily to improved operating profits and significant gains from asset sales. Fabricated metals, nonferrous metals, and aircraft also reported statistically significant improvements. Declines in electrical machinery and stone, clay, and glass were due chiefly to lower operating profits.

When compared to the first quarter of 1997, unadjusted durable manufacturers' profits were up $\$ 17.0$ billion or 62.9 percent $( \pm 4.7 \%)$. As with the quarter to quarter change, results were mixed. Motor vehicles' \$16.6 ( $\pm 0.1$ ) billion was due chiefly to significant gains from asset sales. Stone, clay, and glass's increase of \$1.3 ( $\pm 0.1$ ) billion was due mostly to the absence of significant nonrecurring charges reported in the first quarter of 1997.

Fabricated metals and furniture also reported statistically significant increases. Electrical machinery, lumber, and aircraft reported decreases. Electrical machinery's \$2.0 ( $\pm 0.4$ ) billion decline was due primarily to decreases in operating profits and foreign earnings .

Unadjusted nondurable manufacturers' after-tax profits for the first quarter of 1998 were $\$ 29.2$ billion, up $\$ 3.6$ billion or 14.1 percent $( \pm 2.8 \%)$ when compared to the fourth quarter of 1997. Industrial chemicals' $\$ 2.8$ ( $\pm 0.1$ ) billion increase was due principally to improved operating profits and the absence of significant nonrecurring charges reported in the fourth quarter of 1997. Paper, food, residual chemicals, rubber, printing, apparel, and textiles also reported statistically significant increases. Petroleum and drugs reported declines. Petroleum's downturn of $\$ 3.4( \pm 0.1)$ billion was due chiefly to lower operating profits and a decline in dividends from non-consolidated foreign subsidiaries.

When compared to the same quarter in 1997, unadjusted nondurable manufacturers' profits were down $\$ 4.4$ billion or 13.0 percent ( $\pm 2.7 \%$ ). The underlying industry categories showed mixed results. Petroleum, residual chemicals, industrial chemicals, and drugs were down. Petroleum's $\$ 4.0$ ( $\pm 0.1$ ) billion decrease was due primarily to declines in operating profits and foreign equity earnings. Food, rubber, paper, and textiles reported increases.

Manufacturers' seasonally adjusted sales for the first quarter of 1998 were $\$ 988.3$ billion, showing no statistically significant change from last quarter. On an unadjusted basis, sales were $\$ 956.0$ billion, down $\$ 54.3$ billion or 5.4 percent ( $\pm 0.9 \%$ ), but up $\$ 20.8$ billion or 2.2 percent $( \pm 1.0 \%)$ from the first quarter of 1997.

Seasonally adjusted sales of nondurables were $\$ 452.0$ billion, down $\$ 8.8$ billion or 1.9 percent ( $\pm 1.2 \%$ ) from last quarter. Seasonally adjusted durable manufacturers' sales were $\$ 536.3$ billion, showing no statistically significant change from last quarter. Unadjusted sales for nondurable manufacturing were $\$ 437.7$ billion, down $\$ 31.3$ billion or 6.7 percent $( \pm 1.2 \%)$ from last quarter and down $\$ 9.9$ billion or 2.2 percent $( \pm 1.3 \%)$ from the first quarter of 1997. Unadjusted durable manufacturers' sales were $\$ 518.4$ billion, down $\$ 22.9$ billion or 4.2 percent ( $\pm 1.3 \%$ ) when compared to the fourth quarter of 1997. On a same quarter a year ago basis, durable manufacturers' sales were up $\$ 30.7$ billion or 6.3 percent $( \pm 1.6 \%)$.

Also included in this release are first quarter 1998 data for large mining and wholesale trade corporations.

These advance data, based on quarterly financial reports from about 8,200 corporations, were released today from the Quarterly Financial Report for Manufacturing, Mining, and Trade Corporations--First Quarter 1998 (QFR-98-1). The publication includes statements of income and retained earnings, balance sheets, and related financial and operating ratios. The aggregated data are classified by industry and asset size.

The publication becomes available for sale approximately two weeks from the date of this release from the Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954 (202-512-1800). The cost for an annual subscription is $\$ 34$ domestic and $\$ 42.50$ foreign. Remittances from foreign countries must be by international money order or by draft on a U.S. bank.

Files are also available on 3.5 inch flexible diskettes from U.S. Department of Commerce, Bureau of the Census (MS1921), P.O. Box 277943, Atlanta, GA 30384-7943 (301-457-4100). The annual subscription cost is \$84; \$66 for the first diskette and $\$ 6$ for each additional diskette. Second quarter 1998 advance data are scheduled for release on September 14, 1998.

## EXPLANATORY NOTES:

This quarter's publication contains data revised due to the reclassification of corporations by industry, and revisions that reflect respondents' corrections of submitted data subsequent to original publication.

The data presented in this report are estimated from a sample survey and therefore are subject to sampling variability as well as nonsampling variability such as response error, nonreporting, and coverage errors. Estimates of sampling variability are presented in the publication. A statement such as "up $2.5( \pm 0.15)$ cents," appearing in the text, indicates the range $(+2.35$ to +2.65 cents) in which the actual change is likely to have occurred. The range given for the change is a 90 percent confidence interval that accounts only for sampling variability. If the range had contained zero (0), it would have been uncertain whether there was an increase or decrease; that is, the change would not have been statistically significant. For any comparison cited without a confidence interval, the change is statistically significant. The quarterly publication includes more detailed explanations of confidence intervals and sampling variability, along with additional measures of sampling variability.

This press release is available on the day of issue through the Department of Commerce's on-line Economic Bulletin Board (202-482-1986) and on the Internet (http://www.census.gov/agfs/www/qfr.html).

${ }^{1}$ Revised.

[^0]:    *Operating profits are profits before nonoperating income and expense items and income taxes.
    ${ }^{1}$ Revised.
    ${ }^{2}$ Includes leather industry (previously titled "Other Nondurables").
    ${ }^{3}$ Included in major industry above.
    ${ }^{4}$ Mining and trade data are the quarterly results of companies in those divisions with assets over $\$ 50$ million; whereas, data for manufacturing corporations represent the quarterly results of companies with assets over $\$ 250,000$.
