

YMCA is dedicated to strengthening the foundations of the community. Across Long Island, we offer programs and services that focus on Healthy Living, Social Responsibility and Youth Development.

We focus on the whole person, family, and community through mind, body and soul. We emphasize the need for support and to live a full and healthy life.

The Y does not only tackle the physical wellness but also the emotional wellness of the individual, family and community.

We provide both individual and group sessions. Groups are designed to address life areas that are touched by substances such as family relationships, social supports and interests, mental and emotional health, vocational and educational, and legal.

The Y provides individualized services to anyone who has been impacted by substance use. This includes those who are struggling with their use, misuse or abuse and/or those whose lives have been affected by someone else's use.

YMCA FAMILY SERVICES

We provide services that promote healthy, sober living through the development of daily living skills and support systems.
